Getting Started

Quickly build an esports program with PlayVS!

1 Campus Interest Meeting

Host an interest meeting on campus to get student sign-ups for each of your games and build out your esports program.

2 Find a Coach

Schools approve the program and select coaches. IT administrators makes sure your tech is ready to go.

3 Build a Team

Coaches build multiple teams that all represent the same school. There are no cuts and teams are co-ed. We recommend at least 15 students for a well-rounded program.

4 Compete Together

Each team will play on campus and compete with other schools in the state. No travel required.

5 Win a Championship

Build on your strategies throughout the season to make the playoffs. Go all out to compete in the final championship game.
