Points of Emphasis

TRACK & FIELD AND CROSS COUNTRY

POINTS OF EMPHASIS

- Heat Acclimatization and the Prevention of Heat Illness
- Use of Rubber Discus in Practice and Competition
- NFHS Track and Field Uniform Regulations
- Sportsmanship

HEAT ACCLIMATIZATION AND PREVENTION OF HEAT ILLNESS

- Exertional Heat Stroke (EHS) leading cause of preventable death in high school athletics
- Participation in high intensity, long-duration or repeated same day session sports in hot weather are at greatest risk
- NFHS offers free course “Heat Illness Prevention” www.nfhslearn.com
- Coaches must know the prevention keys which are located in the 2017 Rules Book, pg. 77

FUNDAMENTAL MUSTS OF HEAT ACCLIMATIZATION PLAN

- Physical exertion and training activities should begin slowly and continue progressively. An athlete cannot be “conditioned” in a period of only two to three weeks.
- Keep each athlete’s individual level of conditioning and medical status in mind and adjust activity accordingly. These factors directly affect heat illness risk.

FUNDAMENTAL MUSTS OF HEAT ACCLIMATIZATION PLAN

- Adjust intensity (lower) and rest breaks (increase frequency/duration), and consider type of uniform, while being sure to monitor all athletes more closely as conditions are increasingly warm/humid, especially if there is a change in weather from the previous few days.
- Athletes must begin practices and training activities adequately hydrated.

FUNDAMENTAL MUSTS OF HEAT ACCLIMATIZATION PLAN

- Recognize early signs of distress and developing exertional heat illness, and promptly adjust activity and treat accordingly. First aid should not be delayed!
- Recognize more serious signs of exertional heat-related distress (clumsiness, stumbling, collapse, obvious behavioral changes and/or other central nervous system problems), immediately stop activity and promptly seek medical attention by activating the Emergency Medical System. On-site rapid cooling should begin immediately.
- An Emergency Action Plan with clearly defined written and practiced protocols should be developed and in place ahead of time.

USE OF RUBBER DISCUS IN PRACTICE AND COMPETITION

- Rubber discus is a legal implement providing all weights and dimensions are met
 - Must meet requirements throughout competition
- Rubber discus is more susceptible to physical and environmental factors that affect size, shape and weight

USE OF RUBBER DISCUS IN PRACTICE AND COMPETITION

- Irregularities in the implement occur more frequently because of contact with ground, cage and other hard surfaces
 - Implement should be evaluated periodically during season by coaches and athletes to ensure discus remains legal
- Meet officials and contestants are reminded an implement may become illegal during competition and further use is disallowed
 - Strongly recommended the contestant should check-in two implements in case the rubber discus becomes illegal during competition

TRACK AND FIELD UNIFORM REGULATIONS

- During a meet, the clerk of the course has the responsibility to check and enforce uniform, visible apparel and shoe regulations
- Prior to meet the ultimate responsibility rests with the coach
 - No valid reason for athlete to show up in illegal uniform
 - If athlete is purchasing a component of the uniform or permitted attire, coach must make certain the athlete and parents are educated on what will be rule compliant

TRACK AND FIELD UNIFORM REGULATIONS

- Garments worn under the uniform bottom are considered foundation garments, providing they DO NOT extend beyond the knees, and are not subject to color or logo restrictions
- This holds true for sports bras and/or boxer style foundation garments as well

TRACK AND FIELD UNIFORM REGULATIONS

- Two or more members of a relay team or cross country team wearing visible undergarments **extending below the knees shall be** the same single, solid color and unadorned
- The purpose for the specific uniform rules for relay and cross country teams is to ensure that members of the same team are easily identifiable to meet officials and other competitors

TRACK AND FIELD UNIFORM REGULATIONS

- One logo or two?
- If it fits within 2 ¼ square inches with no dimension greater than 2 ¼ inches, this is a single logo

SPORTSMANSHIP

- Good sporting conduct, sportsmanship, is a foundational pillar of high school athletics
- Its value and importance should not be overlooked or taken for granted
- Sportsmanship rules exist to help officials, parents, coaches and the student-athletes themselves develop and reinforce values that are applicable to the development of the whole person and enhance the participation experience

SPORTSMANSHIP

- Respect for others, honesty, fair play, and learning and understanding rules are critical action skills that, when practiced, will enhance any individual's character
- The absence of good sportsmanship jeopardizes one of the fundamental principles of participation in education-based athletics
- This season “step-up to the line” and practice respect, honesty, fair play...the essence of good sportsmanship, a true characteristic that makes track and field/cross country such great sports with lifelong values
