

SECTION IV ALIGNMENT AND CLASSIFICATION

4.1 NMAA MEMBER SCHOOL DISTRICT ALIGNMENT 2008-09 / 2009-10

4.1.1 General

Alignment and Classification is ultimately under the direction and purview of the Board of Directors. The Executive Director, Associate Directors, and the Alignment/Classification Committee meet on a regular basis to make recommendations on matters of alignment and classification to the Board of Directors.

4.1.2 Criteria for Alignment/Classification 2008-09/2009-10

A global look at the entire state is used to determine alignment and classification by class, district, and particular sport. The 80-day count numbers generated by the Public Education Department are used to determine enrollment figures. The major criteria used are natural breaks in enrollment, geography, and district and classification balance.

4.1.3 Rules of Alignment and Classification 2008-09/2009-10

- A. Schools will be placed in a particular classification and/or district for a two year block. Schools will not be moved in classification and/or district until that block has ended.
- B. In team sports, schools will not be allowed to enter into a classification and/or a district during the middle of a two year block. New schools or teams are encouraged to participate, yet they are not eligible for district or post-season play until a new two year block starts. They must notify the NMAA, in writing, one year prior to the next two year block, to be assigned to a district and to establish eligibility for post-season play.

****Exception** – New schools who have made appropriate plans with the NMAA for the future will be allowed to enter a district in the second year of a two year block.
- C. In individual sports, such as cross country, golf, tennis, swimming and diving, wrestling, and track and field, schools can enter a district during the middle of a two year block with proper written communication to the NMAA.
- D. Independent status may be achieved by member schools in all team sports. Member schools who desire independent status must petition the Director in writing one year prior to the beginning of a two-year block. Independent status eliminates a school's opportunity to participate in post-season play.
- E. Schools may choose to play up in classification, but not down. They must inform the Director in writing one year prior to the beginning of a two-year block to be granted this opportunity. In the sport of football only, schools can play at their actual classification, although they play up in all other sports. Schools choosing to play up in classification must commit to a four-year block (2 – two-year blocks) upon declaration.

Exception: Due to the geographic makeup of New Mexico and the lack of schools participating in certain sports (i.e. tennis), schools may be allowed to play up in classification to relieve travel issues, loss of school time, and to avoid one or two

team districts. This can be accomplished by the school petitioning to the Director for a recommendation to the Board of Directors.

- F. Schools that fail to complete seasons and/or fulfill contracts in any sport may be placed on probationary status in that sport and must petition the Director and the Board to be eligible for post-season play the succeeding year. Schools must fulfill financial obligations as set by the Director prior to eligibility being restored.
- G. If a school has a 33% loss in enrollment numbers during a two-year block, they may petition the Director and the Board to be moved in classification during the middle of a two-year block. If a school has a 33% gain in enrollment numbers during a two-year block, the Director, in conjunction with the Board, has the authority to move that school up in classification during the middle of a two-year block due to the rapid growth.
