Eligibility of Student-Athletes

Only student-athletes eligible under Section VI of the NMAA Handbook may represent member schools in interscholastic competition. Member schools are required to certify the eligibility of their student-athletes before they participate and to withhold ineligible student-athletes from all interscholastic competition. See www.nmact.org for student-eligibility guidelines in the NMAA Handbook.

If an ineligible student-athlete is accidentally or intentionally permitted to participate in an interscholastic contest, forfeit of the contest and honors shall be automatic and mandatory after being reported to the NMAA Executive Director.

Undue Influence

All member schools agree to conduct their interscholastic/performance and athletic activities according to the rules and regulations of the National Federation of High School Associations (NFHS) and the New Mexico Activities Association (NMAA). It is the duty of the administration to address the particular situation where there is a question of undue influence. (See NMAA Handbook 6.1.3)

The use of any of the following inducements constitutes undue influence resulting in ineligibility for all high school athletic participation for 180 school days/365 calendar days:

- A.** Participant living with coach, principal, teacher, or school official without legal guardianship
- B.** Any inducement to get parents or students to change residence for athletic/non-athletic purposes
- C.** Offer or acceptance of money
- D.** Reduction or remission of regular tuition (other than need-based financial aid available to all applicants)
- E.** Offer or acceptance of board, room, or clothing
- F.** Offer or acceptance of money for work in excess of amount regularly paid
- G.** Transportation to school by any school official
- H.** Offer or acceptance of school privileges not normally granted to other students
- I.** Free or reduced rent for parents
- J.** Offer for payment of moving expenses for parents
- K.** Communication with student/parents by school personnel that might be construed as inducement for them to attend a particular school

“Pursuing Victory With Honor”

At its best, athletic competition can hold intrinsic value for our society. It is a symbol of a great ideal: *“Pursuing Victory With Honor.”* The love of sports is deeply embedded in our national consciousness. The values of millions of participants and spectators are directly and dramatically influenced by the values conveyed by organized sports. Thus, sports are a major social force that shapes the quality and character of the American culture. In the belief that the impact of sports can and should enhance the character and uplift the ethics of the nation, we seek to establish a framework of principles and a common language of values that can be adopted and practiced widely. The main principles are as follows:

- Promote sportsmanship and foster good character by teaching, enforcing, advocating and modeling the “Six Pillars of Character”: trustworthiness, respect, responsibility, fairness, caring, and good citizenship.
- Conduct sports programs in a manner that enhances the mental, social and moral development of athletes and teaches positive life skills that will help them become personally successful and socially responsible.
- Consistently demonstrate and demand scrupulous integrity and observe and enforce the spirit as well as the letter of the rules.
- The highest administrative officer of the organization with sports programs must maintain ultimate responsibility for the integrity and quality of those programs and must assure that education and character-development responsibilities are not compromised to achieve sports performance goals and that the academic, emotional, physical and moral well-being of athletes is always above desires and pressures to win.
- Prominently discuss the importance of character, ethics, and sportsmanship during the recruiting process and in promotional and descriptive materials, and specifically determine that the athlete has or will develop the character to succeed.
- The leadership of sports programs at all levels must ensure that coaches, whether paid or voluntary, are competent to coach in three areas: 1) character building and sportsmanship, 2) first-aid and the physical capacities and limitation of the age group coached, and 3) coaching principles and rules and strategies of the sport.

Sportsmanship and Unsportsmanlike Conduct

Student-athletes, coaches, administrators, spectators and all other persons connected directly or indirectly with a member school, as well as meet officials, shall adhere to the principles of *“Pursuing Victory With Honor”* and the ethics of competition before, during, and after all contests in which they participate and/or attend.

Each participating school shall be held strictly accountable for unsportsmanlike conduct on the part of its competitors, coaches, and spectators.

If contestants or people from any school are found guilty of carelessness or maliciously breaking, damaging or destroying property or equipment belonging to the host school or host organization, such school will be held responsible for costs incurred in replacing or repairing such property or equipment.

Video Recording/Telecasts/Radio Broadcasting Consent Rule/Procedures

Practice Sessions/Scrimmages

Radio broadcasting, video recording, or telecasting a practice session or scrimmage by anyone not connected with the participating school(s) is prohibited without the consent of the school(s) involved.

Regular Season Contests

Radio broadcasting, video recording, or telecasting a regular season contest is prohibited without the consent of the host school. Exception: The visiting school may video record the contest as long as it is not broadcast for public viewing. This does not prohibit use of film and tape for sports clips by media representatives.

NOTE: Video recording, photographing, or other electronic aids (excluding stat devices) cannot be used for study or coaching purposes until after the completion of the contest.

District, State Playoffs/Tournaments

1. Media, Broadcast, and Telecast

Each member school grants to the New Mexico Activities Association the exclusive telecast or broadcast rights to all events at the playoff level. "Telecast and broadcast rights" include, but are not limited to, over the air television, cable television, radio, Internet, or web streaming. The "playoff level" includes any post season event identified as festival, district, sectional, regional or state by Board of Directors action. The NMAA reserves the right to grant or refuse any request for broadcast/telecast at the playoff level. The NMAA may contract with third parties for the telecast or broadcast of any event at the playoff level and establish rights/fees for any such events.

Media representatives at NMAA sanctioned events are subject to applicable rules/procedures/policies as established by the Association. Authorization and credentials requests must be submitted to the NMAA Director of Communications. Credentials request forms can be downloaded from the NMAA website.

Any television broadcast must be approved by the NMAA Director of Communications. Telecasting fees may apply dependent upon whether the telecast is live or tape delayed and the event being televised.

The NMAA occupies jurisdiction over the radio broadcasts of all New Mexico high school interscholastic championship events (First round of state, Quarterfinals, Semifinals, and Finals). The broadcast of all regular season contests is under the jurisdiction of each host school.

- a. The installation of phone lines and press box assignments is the responsibility of the individual radio station. Radio stations should contact the facility manager or athletic director to arrange for specific broadcasting needs.
- b. Broadcasting or telecasting of any activity sponsored by the Association, as per Board policy, must be approved by the NMAA Director of Communications.
- c. Radio stations will confine their remarks to an actual description of the games and the action in connection with them and announcers will make no comments in regard to the judgment of game officials or coaches during any broadcast originating from the game/contest site. Violation of this clause will result in the station not being permitted to continue its broadcast.

2. Video Streaming Policy

Videotaping of championship events is permitted. The following guidelines must be followed:

- a. Tripods cannot be used within the spectator seating area.
- b. The use of electricity is prohibited.
- c. Spectators will not be permitted in areas reserved for media personnel or persons conducting official NMAA business (i.e. on the court, field, in press box facilities, and/or playing surfaces).
- d. The NMAA reserves the right to request that a person filming move to another area or stop filming a particular event.
- e. Live streaming of any NMAA State Championship Game/Contest must be approved by the NMAA.

Multi-Activity Participation

The NMAA believes all interscholastic activities are an extension of the classroom. The NMAA encourages Students to take part in as many activities as possible during their years in school. Specific parameters are established in the NMAA Handbook for season lengths and number of contests in NMAA-sponsored sports. Participation on non-school teams is not controlled by the NMAA, but athletes and their parents are strongly encouraged to consider participation in more than one interscholastic activity. Coaches are expected to encourage multi-sport participation. Dual participation is discouraged during the respective defined sport season.

Rule Requirements and Philosophical Basis

Each individual school/district is required to establish and enforce regulations which are driven educationally by the NMAA interscholastic objective. The following requirements, as well as local policy, intend to assure adherence to those rules/procedures, consistent with that objective:

- A. Educational value: Educational goals that are encompassed by the NMAA objective must be incorporated.
- B. Students must be given the opportunity to participate in multiple activities (sports, family, recreational, etc.) It is the responsibility of the local school district to provide time for students to participate in family activities.
- C. Promote physical fitness.
- D. Participation must not be restricted by financial status of the student.
- E. Participation in a camp or recreation program outside the conventional school year and/or during the summer cannot be a requirement for participation in the regular sports season.
- F. State generated funds or gate receipt monies cannot be used to finance tuition, fees, meals and lodging, or fuel costs for such programs (camps and/or recreation programs during the summer or outside the conventional school year) for coaches who are, have been or will be employed by the school and/or for players or prospective players.
- G. Equipment such as, but not confined to football helmets, pads, etc. in any sport is prohibited in the out-of-season, summer camps or summer recreation programs. See each individual sport for specific requirements.

Opponents: Member schools shall compete only against schools that are members of the NMAA, or out-of-state schools that are members of associations that regulate interscholastic athletic competition within their respective states. Out-of-state schools, however, must have eligibility guidelines comparable to those of the NMAA, and must have an established season of competition in the sport that is concurrent with that of the NMAA. Competition with out-of-state schools, in some cases, may require the approval of the NFHS. See www.nmact.org for NFHS regulations on interstate and international competition.

Protests: Any school filing a protest or complaint may be required to submit in writing a full statement of the facts to the NMAA Executive Director. The protest or complaint shall be signed or co-signed by the school's administrative head. The Director shall send a copy to the administrative head of the school against which the protest or complaint has been made if applicable. The NMAA Executive Director shall have the authority to investigate and take action.

Incident Reporting: If a player, coach, or fan is ejected from a contest or if misbehavior and/or unsportsmanlike conduct occurs by any of these individuals, the contest official witnessing the incident is responsible for reporting it to the NMAA office.

If an official acts in an inappropriate manner or if his/her performance is adversely affecting the participants of a contest, the coach or administrator from any of the participating schools may report the incident to the NMAA office.

Incident reports must include the date and site of the contest, the level of competition and whether the contest was boys' or girls' (where applicable), as well as a detailed narrative of the events leading up to the ejection or other incident. Incident reports of any nature must be sent to the NMAA office within 24 hours of the occurrence by fax (505-923-3114), e-mail (dsanchez@nmact.org) or mail (6600 Palomas Ave. NE, Albuquerque, New Mexico 87109.)
