**J. CONTENTS OF BY-LAWS**

Control measures, membership requirements, duties of officers, functions of standing committees, and member membership fees are covered in the by-laws.

**K. SUBSIDIARY ORGANIZATIONS**

These organizations may have constitutions and by-laws. The constitution and by-laws of subsidiary organizations may not be in conflict with these provisions:

1. Regions have boundaries specified by the NMAA. For those sports that have a regional assignor, the regional assignor is responsible for all groups within a defined area.
2. Local groups consist of officials currently registered in a specific sport. They may be formed with approval by the Executive Board. Local groups must develop by-laws pertaining to the election of local officers, to include a President, Vice-President and Secretary/Treasurer. A supervisory committee shall be created within the local association by-laws to respond to concerns associated with group members. It has the authority to take appropriate sanctioning action.
  - a. A local group may be dissolved or suspended by action of the Executive Board when it is deemed to have become too small to effectively serve its membership or for other just cause. State Supervisory Committee concurrence or recommendation is required for these actions.
  - b. Each group must have a minimum of six members - one of whom must be at the second highest rating level or higher in the specific sport.

Membership in this association is open to all persons who are high school graduates and/or eighteen years of age or older for varsity contests or fifteen years of age or older for high school sub-varsity/junior high contests wishing to affiliate themselves with an organized athletic officials' group serving the state of New Mexico, and is mandatory for the officials who have been sanctioned by the New Mexico Activities Association.
2. Applicants for membership must signify their willingness and demonstrate their ability to meet the requirements of the Constitution and by-laws and comply with their provisions.

3. Eligibility for membership always rests with the NMAA.

6. **Reciprocal members** are reduced dues-paying members who are non-residents of New Mexico actively engaged in officiating and are registered in another state that uses National Federation rules for that sport. This state must grant reciprocity to members in good standing from New Mexico. Determination of eligibility shall be made by the NMAA. These members are not eligible for post-season events nor do they have voting privileges.
7. Individuals may also choose to register as **High School Sub-Varsity/Junior High** officials. Membership in this category entitles an individual to register at a reduced rate. Officials registered in this category are entitled to full membership privileges but may only call high school sub-varsity contests or junior high/middle school contests. Officials in this category are not eligible for varsity competition. Per the Board of Directors of the New Mexico Activities Association, any individual calling at sub-varsity levels must be registered with the NMAA/NMOA office. Years of service as a sub-varsity official are not incorporated in the advancement process for "Active Members."

Individuals who would like to change their registration classification from Sub-Varsity/Junior High to full dues-paying Active members for the purposes of advancement may do so by paying the additional fees.

8. Initiation Fees and Annual Dues (effective beginning 2016-2017 school year)

**E. DUTIES OF GROUP LEADERS/LOCAL GROUP PRESIDENT**

1. Group leaders, selected through the processes established in local group by-laws, are responsible for conducting local meetings during the season, maintaining a meeting attendance list and reporting the following information within thirty (30) days following the final state championship game in that sport to the NMOA. 2. The process for the selection of group leaders and local assignors, inclusive of the method of selection and terms of office, is to be determined by each local association and should be contained within the local association's by-laws. If no local association by-laws exist, the NMAA office will appoint someone to fill the position.

**F. NMOA MENTOR PROGRAM**

1. The NMOA Mentor Program, designed to improve training and retention of new officials, operates under the following guidelines.
  - a. The group leader assigns each new official to a veteran official. The senior partner is responsible to assist the new official in whatever capacity required in learning the officiating system. His/her responsibilities include but are not confined to the following:
    - 1) Taking the new official to as many of his/her contract contests as possible.

    - 5) Scheduling time for various activities.

**G. ETHICS/BEHAVIOR**

Officials shall conduct themselves in an ethical manner consistent with a humane approach to his fellow officials, coaches, players and spectators. This shall include but is not limited to refraining from making public and/or private comments about officials or game situations except as requested by supervisory committee. The official will honor and abide by the "Officials Code of Ethics" as specified by the National Federation (NFHS).

**H. NMOA SEXUAL HARASSMENT & SEXUAL DISCRIMINATION POLICY**

Sexual harassment is unwelcome conduct of a sexual nature. It constitutes a form of sexual discrimination and is a form of misconduct. All NMOA officials must be allowed to work in an environment free from unsolicited and unwelcome sexual overtures. It is the intent of the NMOA to protect all officials from inappropriate behavior.

Sexual harassment is defined as unsolicited and unwelcome sexual advances, requests for sexual favors and other verbal, physical, visual or written conduct of a sexual nature. Sexual harassment does not refer to occasional compliments; it refers to behavior of a sexual nature that interferes with the work of its victims.

Sexual discrimination involves treating someone differently because of that person's sex. Mirroring a 2003 New Mexico state law, officials are not to be discriminated against based on sexual orientation, gender or gender identity. Discrimination against an individual because of gender identity, including transgender status, or because of sexual orientation is discrimination because of sex in violation of Title VII.

**1. Reporting of Sexual Harassment/Sexual Discrimination**

Any official who believes that sexual harassment or sexual discrimination has occurred should immediately report the incident. The NMOA takes these matters very seriously and will conduct a prompt investigation. Any member of the NMOA found to have engaged in any form of sexual harassment or discrimination will be subject to appropriate disciplinary action up to and including expulsion from the Association.

The NMOA will not tolerate any retaliation against any official for making a complaint or bringing inappropriate conduct to management's attention. Absolute confidentiality cannot be guaranteed, but every effort will be made to handle all complaints and investigations with as much discretion and confidentiality as circumstances permit.

**I. CONFLICT OF INTEREST POLICY**

Officials shall not work contests for teams/schools with whom they have a close affiliation or relationships. Examples of this affiliation would be: family members on the coaching staff, family members who play on the team, official is a booster of a particular school or any other close relationship that would lead to accusations of a conflict of interest. It is the responsibility of the official to notify the NMAA and his/her assignor(s) of any schools/teams with which conflict of interest exists. Failure to disclose these relationships will lead to penalties in concert with the NMOA's series of fines and sanctions. Exception: Swimming officials are exempt from this policy due to the fact that a majority of the swimming officials in the state are parents of current or former swimmers and this is in concert with other governing bodies of swimming as well.

**J. SERIES OF FINES AND SANCTIONS**

2. Appeals must be initiated by a letter from the petitioning official. The letter must request the decision be reviewed and must be sent to the Commissioner of Officials postmarked within ten (10) calendar days of the date of mailing of the Executive Board's decision. Failure to appeal within the time specified constitutes a waiver of any rights to appeal. Appeals can be sent electronically or via hard copy mail.
3. Evidence and testimony at meetings/hearings is informal but follow generally accepted rules and procedures for ensuring due process. New evidence is not allowed unless not in existence at the time of the decision of the Executive Board, or which although in existence at that time, was not discovered.

Emailed ballots must be date/time stamped by midnight on the due date, if sent through mail.

**III. ADVANCEMENT AND CERTIFICATION (ACTIVE MEMBERS)**

**A. INTERPRETATIONS AND PROCEDURES FOR ALL SPORTS**

1. **Promotional Criteria:** Promotional criteria for each sport fall into two categories. Criteria accumulated during one school year apply to the next school year in which an official registers to determine rating (status, classification) of an official. The only exception is for a first-year official wherein the test score applies to both the current year and the following school year.
  - a. **Attendance/Achievement:** This process assigns minimum requirements for tests, meetings, games worked and clinics for each level. When an official for a particular level meets minimum requirements, that official is placed in that level.
  - b. **Point Promotional:** This process awards points for various levels of achievement from a wide array of sources. These accumulated points are used to determine the officiating level of each member and his/her advancement to the top level.
2. **New Officials:** New officials without documented previous experience start at the lowest level and proceed to advance to the highest level. To reach the highest level an official must serve a minimum of one year at each intermediate level. Thus, an official may achieve the highest level, at a minimum of *four* years. If a new official becomes a member after it is impossible to attend the minimum meeting requirements, the next year in which the official registers in that sport will be considered his/her initial year. The initiation fee will be waived the second time around and the partial year's test score(s) will apply.
3. **Transfer Officials:** Officials transferring from other state high school associations to this association (NMOA) may be placed at a level comparable to the originating state. This decision is made by the NMAA. If the official is transferring from a state association that uses the National Federation tests, those scores can be used and the official can be issued a valid official's card at the appropriate level as per NMOA rules and regulations. Otherwise, the official must take the current year's test before receiving an official's card.
4. **Inactive Status:** An official can declare himself/herself inactive at anytime. If an official becomes inactive during a season because of injury, for example, the entire season will be nullified. Therefore, the next time the official registers, the inactive season will not be considered for classification and the promotional process.
5. **Interrupted Status:** If an official returns to officiate after a minimum of one year absent from that sport, the official can resume at the level he/she qualified for during his/her last two years of service. If an official did not complete some requirements during his/her last year, the official can resume his officiating at a level of at least one level below that of his/her last year. If the missing requirement is a test, the official must take the current year's test before receiving a card.

If an official returns to officiate after an absence of greater than three years, that official must successfully complete the required examination(s) before receiving his/her card. In addition, if an official did not complete requirements during their last year, he/she can resume his officiating at a level of at least one below his/her last level.

6. **Rules Examinations:** The minimum successful passing grade for any required examinations for all sports is 70 out of 100 questions. Examinations are open book. Each sport mandates a National Federation standardized rules exam (Part I) to be successfully completed by each registered member each year.

a. **Deadlines**

Baseball	March 15
Softball	March 15
Track & Field	March 15
Football	September 15
Soccer	September 15
Volleyball	September 15
Basketball	December 15
Wrestling	December 15

There is a \$25 fine for each exam postmarked later than the deadline date or received in the office from a non-postal delivery after the deadline date. The fine also applies to exams not submitted online by the above-stated deadlines.

b. **Exam Process**

A mandatory rules examination (commonly called Part I) must be taken and turned in by the identified deadline.

To improve a grade for any exam, a second comparable exam can be taken. The final score is the average of the two exams (Part I and Part II for example) or the result of the first exam, whichever is higher.

If an official scores less than 70% on any first exam, he/she must take the second exam and the average of the two scores must be at least 70% in order to be eligible for the applicable year.

If an official fails to successfully pass the examination(s), that official has an opportunity to qualify again for the applicable year by taking the succeeding year's test(s). However, the official will drop a level in rating. For first year officials, they will not be registered to officiate their initial year but may reapply again the following year.

In both basketball and football, officials are required to take online mechanics quizzes administered by the NMAA office throughout the sport season. These quizzes are in place of the former National Federation Mechanics Exams in both sports (effective July 1, 2017).

7. **Meetings:** Active members must attend a minimum number of local group training meetings in their respective sport(s). The number of meetings that may be made up by performing extra credit work at the local or state level is one less than half the minimum required meetings (if 8 meetings are the minimum required then 3 could be credited; for 6 meetings minimum, it would be 2). If an official fails to meet the minimum number of local training meetings required and does not pursue any make-up work for this deficiency, that official can continue to officiate provided all of the following:

- The official has attended 50% or more of the minimum required meetings.
- The official will drop a level in the certification scale and will not be placed on the first round of official assignments. Exceptions are made for new officials, inactive officials and interrupted officials who sign up after the season has begun. If the official is a non-first or second year official, he/she will be dropped for a minimum of one year from the association's active official list.

8. **Make-Up Procedure:** In certain cases, and with documented justification, an official may request in writing to the State Commissioner the opportunity to make up a deficiency. If approved, a written make-

up assignment will be issued. Credit can be allowed upon timely successful completion of the complete assignment. State clinics cannot be made up.

9. **Game Points:** If an official fails to submit the number of games officiated to the group leader, that official will drop a level in the certification scale. The official has until before the time the certification cards have been distributed to rectify the deficiency. Recognized college conference assignments can be counted as a varsity game credit. To receive credit, the officials must turn a copy of the schedule worked into the official's group leader.
10. **Requirements to be An Official in Good Standing:** Officials in good standing will have paid current annual dues, scored a minimum grade (see each individual sport) on the current written examination(s), met the requirements as specified in the by-laws for each individual sport, not have any outstanding disciplinary investigations pending and NOT owe any fines or late fees assessed by the association or the NMAA.
11. **Rating Levels:** NMOA members are rated annually by the state office. Each sport has various requirements for advancement. First year officials are Apprentices. The following sport-specific sections contain the details on advancement.
12. **Post-Season Assignments (All Sports):** The selection of officials for post-season contests is ultimately under the authority of the New Mexico Activities Association. Officials must be at the **State Eligible** or **Playoff Eligible** status to work post-season contests. Factors such as evaluations by NMAA approved evaluators, feedback from local group leaders and assignors, regional assignors and coaches' input may be considered in making the selection for post-season officiating staffs. The final decision for the selection of post-season officials falls under the authority of the NMAA Executive Director and NMAA Commissioner of Officials.

In order for an official to be eligible for the current year's post-season contests, members must have attended the minimum required meetings for the respective sports and passed the test with the minimum required scores, according to the by-laws for that particular sport. Each group leader must notify each member of his/her group and the NMAA office of the upcoming year's agenda and meeting dates and times one month prior to the first indicated meeting date.

13. All outstanding fines, make-up work, or other deficiencies must be received in the NMAA office no later than June 30<sup>th</sup> of the current year.
